AFTERNOON TEA EXPERIENCE

For those who've ever longed to feel like a real-life royal having tea in a palace, this lavishly elegant virtual experience is a must.

The ritual of afternoon tea is one steeped in tradition. Born from the Duchess of Bedford's desire to satisfy her afternoon hunger pangs, it's often thought of as old and stuffy. Not "Tea with Heidi." She offers a modern twist on a traditional afternoon tea while maintaining the P's and Q's of the noble ritual in the way it demands.

Is it milk first or tea first? Tea first, always. Pinkies up? Absolutely never.

During this hour long virtual experience, [Heidi Dulebohn](#) will guide you through the rich history of afternoon tea — don't even think about calling it high tea — how to set an appealing table, brewing and preparing your tea correctly, selecting the appropriate menu — and how to consume it. Oh, and we aren't opposed to adding some bubbly and going full blown royal either!

So, join Heidi for tea, learn something new, or polish old skills. This experience will leave you confident enough to have tea with the Queen.

## THE CURRENT MARKET IS SATURATED WITH VIRTUAL EVENTS, BUT NOT ALL OF THEM ARE WORTH YOUR TIME.

This is what makes "Tea with Heidi" special:

- Heidi has traveled the globe and had afternoon tea at some of the most prestigious locations. She brings the best qualities from each experience to her event.
- This isn't your average virtual tea. It's interactive, engaging, and offers a luxurious educational vibe that combines the P's and Q's of tea etiquette, with social skills, and kitschy historical sidebars to add that "royal/Queen" factor.
- This experience is constantly evolving. Not only are there different levels to the content, we have several ideas on how to use your platform and audience to add flavor and continuously increase the luxe factor associated with this event.

DURATION OF VIRTUAL EXPERIENCE: 40 MIN WITH 20 MIN Q&A
